

Name	Wen Yang
Education Background	<b>Ph.D.Candidate</b> in Plasma Physics, Institute of Physics, Chinese Academy of Sciences (2012 – Present). <b>B.S.</b> in Physics, Department of Physics, Sichuan University (2008 – 2012).
E-mail	wingyoung90@gmail.com
Research Topic	Theoretical research on tearing mode
A brief introduction of your research topic	According to the quasilinear method, research the influence of the equilibrium shear flow and hyper-resistivity on nonlinear tearing mode.
